

MyInvoiceHub

Easily manage and audit your invoices

A Single Source of Financial Truth, Right at Your Fingertips

MyInvoiceHub is a freight audit tool that stores and analyzes your invoices, making it easy to catch discrepancies and avoid unexpected charges.

- **Streamline operations:** Automate manual data entry and approval processes, reducing the time it takes to audit your freight by 90%.
- **Ensure billing accuracy:** Easily identify and resolve variances between invoices and quotes.
- **Make data-driven decisions:** Access actionable insights for supply chain improvements and pass the savings on to your customers.

MyInvoiceHub Features

Invoice Matching and Line-Item Audit

MyInvoiceHub compares your invoices against quotes to identify overcharges and undercharges.

Auto-Approve Thresholds

Use automated workflows to set custom thresholds for automatic invoice approval.

Integrate With Your ERP

Connect to your ERP, like NetSuite or Acumatica, to ensure invoice data is consistent across all systems.
